

Your first step towards a simpler workday.

**How are you doing then?**

**1.**

All entrepreneurs want good control over their company.

Not everyone succeeds.

**2.**

Companies invest in many systems that will make the company more efficient.

Not all systems do.

## Our vision

Project Office should be the **best business support on the market** and when you talk about business support you mean Project Office.

Project Office helps companies gather all the knowledge about the company, customers, relationships, quotations, orders, projects, customer satisfaction, profitability and finances.

**All in one system.**

A woman with long blonde hair and glasses, wearing a blue top, is sitting at a desk and talking to a man with dark hair and a beard, wearing a blue suit. They are in an office setting with a computer monitor and a laptop visible. The woman is holding a pen and looking towards the man. The man is looking at the woman. The background is slightly blurred, showing a white wall and a computer monitor.

Project Office helps customers who today have several different systems that will simplify their operations, but who nevertheless have **poor control over how the company and the customers are doing.**

# Project Office helps the client to:

- ✓ Get an overall picture of their company.
- ✓ Become more professional.
- ✓ Sell more, more professional and more structured.
- ✓ Quality assured production & delivery.
- ✓ Get more satisfied customers.
- ✓ Increase profitability.

# We also help the customer with...

- ✓ Easier and cheaper to hire.
- ✓ Knowledge of the company, products and delivery that make the company better every day.
- ✓ Customer information that builds the value of the company.
- ✓ To always be prepared for the board, bank, adviser, auditor.
